# Thesis:

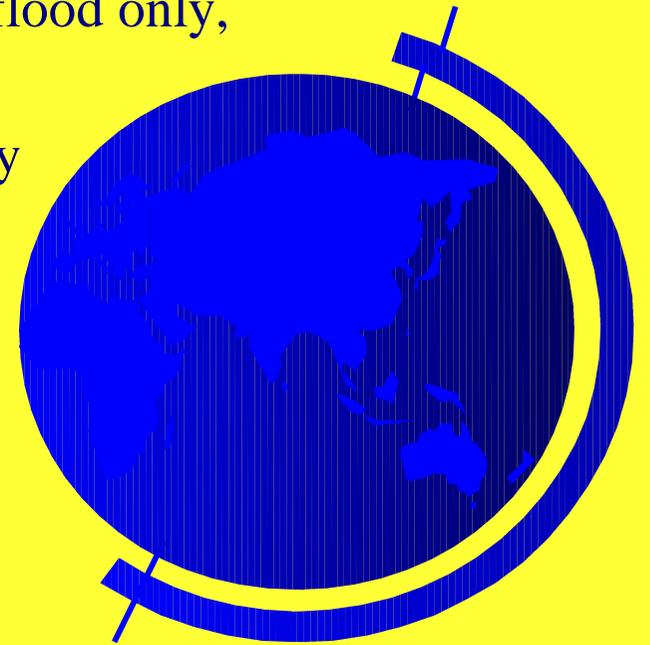

## Almost Each Map Shows, that the Great Flood Took Place

- ❖ The puzzle of continents yields a sphere which is related to former times of the earth.
- ❖ Die flood level of the continental sphere is related to the flood level of the great flood.
- ❖ The folded mountains on the continental sphere yield a pattern related to the continental shape before the great flood.
- ❖ Topographic maps show details about the precise flowing off of the water streams of the great flood.

# Why is Dealing with the Great Flood Actual until Today?

- ❖ The neglecting of the great flood is the largest heresy of the last time being based on mockery. (2. Peter 3:3-7)
- ❖ Before the return of Jesus men will think about food, drinking, marrying and being married, like before the great flood, thus they are not prepared. (Matthew 24:34-41)
- ❖ Theology has turned the idea of a great flood into a flood only, because the reason of the event was human's sin.
- ❖ Dealing with the great flood belongs to the extremely interesting problems of chronology, hydrodynamics, geology, geomorphology and geodesy. Further the fields of soil searching, biology and palaeontology profit by this.

# The Meaning of the Rainbow

- ❖ Historically it is the sign of God that no further great flood will come again. (Genesis 8:20-22, 9:8-17)
- ❖ The rainbow presents the spectral colors of sun light by a weight of the index of refraction of water.
- ❖ The order of colors of the rainbow happens in such a way, that rainbow and secondary rainbow are joined by the red color of blood.
- ❖ Thus the following rule results (1. John 1:7):  
But if we walk in the light,  
as he is in the light,  
we have fellowship one with another,  
and the blood of Jesus Christ his Son  
cleanseth us from all sin.
